

HOW TO EXTINGUISH A KITCHEN FIRE

Fire emergency number:

911

GREASE FIRES

DO ...

- (1) Turn stove OFF.
- (2) Cover burning container with lid or pan to smother fire.

If smothering fails, call the fire emergency number.

DO NOT throw water on a grease fire. You may cause an explosion.

ELECTRICAL FIRES

DO ...

- (1) Unplug burning appliance, or ...
- (2) Turn circuit-breaker off, or ...
- (3) Unscrew fuse.

DO NOT throw water on fire or touch burning element.

OVEN FIRES

DO ...

- (1) Close oven door and leave closed (this cuts off oxygen).
- (2) Turn oven OFF.

GAS LEAKS

DO ...

- (1) Close doors to room and get out.
- (2) Call fire department from another location.

DO NOT use telephone, turn on lights, use a flashlight, or put key in lock in a room with a gas leak. The slightest spark can cause an explosion.

**IF YOU CAN'T PUT THE FIRE OUT IMMEDIATELY—
CALL THE FIRE EMERGENCY NUMBER.**
